HONORING SERGEANT MARLENE R. RITTMANIC

Ms. DUCKWORTH. Mr. President, I rise today to pay tribute to the remarkable life of Sergeant Marlene R. Rittmanic, a 21-year veteran of law enforcement who was fatally shot and passed away on December 30, 2021, while serving in the line of duty. Sergeant Rittmanic started her remarkable career at the Iroquois County Sheriff's Police Department, serving 7 years before transferring to the Bradley Police Department in 2007, for the last 14 years.

Throughout her years of protecting and serving, Sergeant Rittmanic received the Officer of the Year Award for Kankakee County and countless letters of commendation for her service to the community. She will be remembered by her colleagues as a model officer and someone who looked forward to making memories with her fellow officers as the department's photographer, posting inspirational and team-building photographs of the officers and the community.

Sergeant Rittmanic was not only a dedicated law enforcement officer, but also a devoted wife and citizen who was loved and respected in her community. Sergeant Rittmanic served in the U.S. Army and was a proud disabled veteran. Sergeant Rittmanic, a poet, also penned the prophetic poem, "The Color We Bleed Is That of Deep Blue," in 2001.

Sergeant Rittmanic was tragically killed in the line of duty while fulfilling her oath to serve and protect the people of the Village of Bradley, IL, and I am grateful for her years of service. She leaves behind her wife, Lyn, and their 2 rescue dogs, Trigger and Abeline. May her service, sacrifice, and kind spirit serve as an inspiration to us all.

ADDITIONAL STATEMENTS

RECOGNIZING THE NAVAL SURFACE WARFARE CENTER INDIAN HEAD DIVISION

• Mr. CARDIN. Mr. President, I rise today to recognize the Naval Surface Warfare Center at Indian Head, MD. They were recognized as a winner in the 2022 Federal Laboratory Consortium National Awards Program, also known as the FLC. The FLC Awards Program annually recognizes Federal laboratories and their industry partners for outstanding technology transfer achievements.

The Excellence in Technology Transfer Award recognizes employees of FLC member laboratories and non-laboratory staff who have accomplished outstanding work in the process of transferring federally developed technology.

Indian Head received the award for its efforts in developing Silent Spring, a technology that desensitizes homemade explosives or HMEs. HMEs are extremely sensitive and unpredictable; a stray spark, a change in temperature,

exposure to sunlight, or even an accidental bump can set them off.

Silent Spring shields volatile explosive materials from these potential triggers. This allows explosive ordinance disposal and law enforcement personnel to more safely move the explosive materials, while preserving forensic evidence and minimizing damage to existing infrastructure.

Silent Spring is now available commercially and is approved within the Department of Defense to address the highest priority EOD threats. The partnership has already provided hundreds of product units to Department of Defense explosive ordinance disposal users for demonstration and training and will soon do the same for the civilian public safety and law enforcement communities.

"This collaboration is one of many we have across the command that deliver innovative technologies to the warfighter," said NSWC IHD commanding officer Capt. Eric Correll. "The faster we can get new innovative products to our warfighters and our first responder partners, the better."

This emphasizes the need to invest in energetics experts. The need for this experience is more apparent than ever. As foreign threats emerge, the bright minds at Indian Head have been able to meet and exceed these threats.

Indian Head does not just explore the detection of explosive devices. They also look at ways to enhance the United States' capabilities to deter foreign aggressors.

Indian Head is a premier facility that has developed ejection seats for our pilots and have developed materials that ensure that our military has the best and sharpest tools to deter our adversaries and keep the people of this country safe.

Indian Head is an unsung hero that has tirelessly worked to ensure our national security and has humbly provided to this country for over a hundred years. We must recognize the importance of energetics research in this country. Other countries are recognizing this, and we cannot ignore this.

We need to continue to invest in this research and development, these are vital capabilities that keep our aggressors at bay.

I want to recognize and thank Indian Head for all of their contributions to the security of our country and for this great achievement.●
